VPN Director

VPN Director allows you to direct LAN traffic through specific OpenVPN tunnels.

- OpenVPN clients set to redirect all traffic have the highest priority
- WAN rules will have priority over OpenVPN rules
- OpenVPN 1 rules have higher priority than OpenVPN 5 rules
- Rules can be individually enabled or disabled by clicking on the first column

OpenVPN clients status

| | | | |
|------------------------|--------------|---------------------|------------------------------|
| OVPN1: Traditions-Mpls | Connected | VPN Director | Stop Client |
| OVPN2: Client 2 | Disconnected | No Internet traffic | Start Client |
| OVPN3: Client 3 | Disconnected | No Internet traffic | Start Client |
| OVPN4: Client 4 | Disconnected | No Internet traffic | Start Client |
| OVPN5: Client 5 | Disconnected | No Internet traffic | Start Client |

Add new rule (Max Limit : 199)

| Enable | Description | Local IP | Remote IP | Iface | Edit |
|--------|-------------|----------|------------------|-------|------|
| | 133 Subnet | | 192.168.133.0/24 | OVPN1 | |
| | DSL Router | | 10.0.3.0/24 | OVPN1 | |
